

**Skyline
Skills Hub**

Let's get ready to build a **more sustainable** city!

The Skyline Skills Hub is the 'one-stop-shop' for all things green skills in London's commercial built environment.

What is the Hub:

Dedicated to bridging the gap between current workforce skills and the future demands of the built environment.

Our Hub supports:

- **Green upskilling and reskilling:** Providing training opportunities for the current workforce.
- **Diverse new entrants:** Encouraging new talent from all backgrounds to join the sector.
- **Collaboration:** Building partnerships between skills providers, employers, and policymakers.

Our mission:

To equip the built environment sector with the green skills needed to achieve a sustainable future.

We focus on:

- Closing the green skills gap by supporting upskilling and reskilling.
- Promoting diversity to attract new entrants from all backgrounds.
- Collaborating with stakeholders to drive lasting change in the industry.

Work with us:

Employers

Let us help you build a green skilled workforce.

Individuals

Gain access to green skills, careers and training opportunities and resources.

Policymakers

Join with us to address the existing green skills barriers, through supporting skills initiatives and creating policy change.
