Fibo panels open new sales stream for C&G Heating & Plumbing

COUNCIL INSTALLS FIBO WALL PANELS TO SUPPORT DEMENTIA CARE

Broxtowe Borough Council recently installed Fibo wall panels in a retirement living scheme to make a bathroom more suitable for individuals with dementia.

Fibo's unique Aqualock system means the wall panels can be installed up to five times quicker than files. The simple tongue-and-groove system means that tilers aren't required, saving further time

Two contrasting colours were specified as recommended for this type of installation.

Howard Draper, from Brooxtows Borough Council, comments: "This was the first time we had used panets as an alternative to tiles and we are very pleased with the outcome. The panels were quick and easy to fit, and excellent from a maintenance in particular.

Howard adds: "Fibo supported us throughout the project and was absolutely superb. Any queries were dealt with on the spot and with professionalism. We would definitely use the panels again."
