

HEATING INSTALLER AWARDS

'I'm chuffed to bits to win this year's Heating Installer Awards especially given the high calibre of entries from the other regional winners. It's entirely humbling for me and my team to receive such acclaim from our peers and industry representatives. These awards play an important role to highlight the professionalism and hard work put in by heating engineers every day. Thank you to all those who've worked hard in the current challenging climate to put these awards together.'

Phil Metcalf - National winner 2020
