

Category 23

Best Big Budget Campaign (£50k+)

Summary

XYZ Reality, a construction AR pioneer, was keen to affirm its authority on the longstanding problem of rework, and how to eliminate it using the latest, sector-specific augmented reality. The Think Tank was retained for a six month, research-supported PR and content-led campaign to raise awareness in its established home market (UK), and build a base in its primary emerging one (US).

Results

Commercial:

- 26 articles achieved in Tier One publications across the UK and US (KPI surpassed by 73%)
